

## Rohan Raju at Abu Dhabi Wildlife Centre

We took part in GMFER activities at Abu Dhabi Wildlife Centre, signed petitions, which were sent to several embassies in U.A.E to spread message and to take action immediately to stop the killing and save Elephants and Rhinos. These are the actions taken by the organizations concerned about wildlife conservation with our participation. Through our RR's Save Wildlife Campaign and RR's Happy Planet Initiative we are reaching global audience enlightening them about the need to save endangered species for future generations. Its a global issue where immediate action needs to be taken by world citizens and governments to save endangered species.

## Rohan Raju 's Art Exhibitions in Schools

As active campaigners, I and my brother are giving a clear message to everyone i.e. to "STOP THE KILLING, STOP THE POACHING" "SAVE ANIMALS, SAVE ENVIRONMENT".

We are spreading the message that if we do not save these species today, tomorrow our future generations will have to see these animals in the form of toys and paintings. Our speeches and awareness campaigns show clear impact on other such as changed perceptions of people. People come to know certain facts that Rhino horn which is linked to medicinal value is not true. Tiny piece of Ivory trinket is costing the lives of many Elephants. We distributed flyers saying "Foster an orphan, save a life" in our campaigns and many people were inspired by our gesture. Many people came to know about the facts of Elephants and Rhinos & felt encouraged to start campaigning to save Elephants and Rhinos.

A HUGE WELL DONE TO

## Rohan Raju 's Best out of Waste

Best out of waste was an exciting event. We along with our friends made a cupboard out of wooden cartons, Plastic covers, recycled paper and other reusable materials. The cupboard also showcased various items used in day to day life such as pen stands, Book shelves etc. made of recyclable material.

This cupboard was exhibited in Dubai as part of the Best out of Waste project of Emirates Environment Group.

The objective of this activity was to understand that resources should be used carefully that we could reuse waste materials and not depend on new things. This activity shows importance of REDUCE, REUSE, RECYCLE
